

HCPCS CODE G2211

Applying code G2211 with
Place of Service (POS) 12 and 13

What is HCPCS Code G2211?

Visit complexity inherent to evaluation and management associated with medical care services that serve as the continuing focal point for all needed health care services and/or with medical care services that are part of ongoing care related to a patient's single, serious condition or a complex condition.

Effective 1/1/26, this code can be utilized for Place of Service 12 (Home) and 13 (Assisted Living)

Utilization

- When you currently serve as the patient's primary care provider managing chronic conditions **OR**
- You are assuming responsibility for ongoing care during a new patient visit

In either scenario above, use only when medically necessary and when documentation supports continuity, complexity, and longitudinal care.

Implementation

- Update your fee schedule
- Educate providers and billing staff
- Avoid templated and repetitive language - documentation should reflect ongoing management and individualized care planning
- Add G2211 to billing templates to prompt selection alongside E/M codes
- Monitor reporting to ensure consistent and accurate use

Practice Impact

- Approximately \$16 per eligible visit
- 40 visits per week = \$640 per week
- \$640 x 48 weeks = \$30,720 annually
- Estimated patient copy \$3.20 per visit
