

Revenue Cycle Management

Helping Home-Based Care Programs Capture Every Dollar They've Earned

Home-based care is complex. We help primary care and palliative care practices improve reimbursement, reduce administrative burden, and grow sustainably. The reality of home-based care:

- Missed reimbursement opportunities
- Evolving payer and regulatory requirements
- Documentation burden on providers
- Credentialing delays and denials
- Revenue left uncollected

While many revenue cycle management companies report accounts receivable rates of 10-15%, our organization consistently maintains an average AR range of just 2.5-5.6% reflecting stronger collections, cleaner claims, and healthier cash flow.

Even High Performing Programs Lose Revenue Without the Right Partner

More Than Billing - True Revenue Integrity

We help home-based primary and palliative care practices maximize compliant reimbursement through accurate documentation, coding, and revenue capture - while reducing administrative burden.

What Sets Us Apart

- Revenue Integrity
- Credentialing That Protects Revenue
- Certified Coding Expertise
- Provider Education
- Designed Around the Patient Experience

Expanded care management billing strategies - including CCM and PCM - help create sustainable recurring revenue while supporting better patient outcomes.

Practice Impact

- ↑ Increased Revenue Capture
- ↓ Reduced Administrative Burden
- ✓ Stronger Compliance & Audit Readiness
- ✓ More Confident Clinical Teams
- ✓ Sustainable Program Growth
